HAWKE'S BAY

ARATAKI  
HONEY  
SINCE 1914

VISITOR  
CENTRE

"Ecoefficient Solutions recognised our solar potential and studied all available data and physical aspects of our site before presenting us with an exciting and cost effective proposal for us to consider."

## SOLAR BENEFITS

- Doing their bit for the environment
- Reducing power bill substantially
- Becoming more self sufficient
- Becoming the first business to install the largest solar system in Hawke's Bay at the time

## CUSTOMER REVIEW

The team at Ecoefficient presented the options and concepts to us in simple terms and supported the proposal with excellent communication. It's great to watch the generation graphics and check production against consumption.

We have been watching solar developments for over a decade. Our peak season is in Summer and we have a lot of North facing roof area. Demand for clean energy will only increase and NZ needs more generation via solar and wind options to meet this demand.
